Game Designer with hands-on experience in game development and QA workflows.

Work Experience

TypeSoft | QA Specialist | 02.2024–08.2026

- Performed manual testing of complex applications across mobile, desktop, and web platforms to ensure functional accuracy and consistent UX.
- Created a set of automated tests to ensure faster, more effective smoke testing.
- Conducted API and integration testing to verify reliable data flow between backend services and third-party tools (payment gateways, AI-powered features).
- Wrote clear, actionable bug reports and comprehensive test cases; collaborated closely with developers to speed up issue resolution.
- Proactively identified usability and accessibility issues and recommended UX improvements.
- Took ownership of QA across diverse application types, from complex manufacturing systems to client-facing applications for PepsiCo.
